## Education

### Computer enginierring :

Islamic azad university at Qom,Iran (From 2018)

## Social media

## Activities

### 2020 Team Green Olive

make alive an old project  
Dockerize with laravel 5.8 and node 8  
new features

- [File stream system](#)  
nodejs Docker mysql
- [Teachers and Admin dashboard](#)  
Laravel React
- [Comment system](#)  
Laravel Html & css

### 2020 Payzos Payment service for Tezos network

#### CTO and BackEnd Developer

[Payzos](#) Tezos is a block chain network (with XTZ currency). this service make an ability to shop owner customers to buy stuff with this currency.

Payzos has some extentions for these shop maker software

- [WooCommerce](#)  
MVC REST API
- [OpenCart](#)  
MVC REST API
- [Magento](#)  
Composer MVC OOP
- [PrestaShop](#)  
MVC REST API

#### Other OpenSource repositories

- [Backend](#)  
MVC Composer REST API [FastRoute](#)
- [Frontrnd](#)  
React
- [ConseilPHP](#)  
ComposerLib PHPSpec

### 2018 - 2019 OpenSource Projects

Some of OpenSource project wich i had contribute in

- [Telegram bot to convert Comic and Manga to PDF](#)  
PHP MVC OOP Composer TDD
- [Zilon WooCommerce plugin](#)  
Wordpress MVC REST API
- [Game leaderBoard api system](#)  
MVC PHP
- [Telegram Cli bot to manage student in Covid-19 pandemic for](#)

[Islamic Azad University \(computing group\)](#)

Python   OOP

- [Fetch full book detail by ISBN](#)

ComposerLib   TDD   Scammer

## 2017   Ermile

### Student Backend Developer

something i learend:

- [OOP structure in PHP and problem solving skill](#)
- Multi languages sites with PoEdit
- Basic DevOps (Nginx and Linux server configuration)
